DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Irving on 12/05/06.

The application has been amended as follows: In the claims:
cancel claims 9-12.

Allowable Subject Matter

2. Claims 1-8, 13-26 are allowed.
3. The following is an examiner's statement of reasons for allowance:

As to claims 1, 5, 13-14, Gong (6,418,411) do not teach applying a plurality of language models to receive voice request for speech recognition based on speech lattices for data field selected by the user, wherein the speech recognition is arranged to use a different language model for each of the chosen plurality of data fields.

Gong does not teach, singularly or in combination, nor fairly suggest, applying a plurality of language models to receive voice request for speech recognition based on speech lattices for data field selected by the user, wherein the speech recognition is arranged to use a different language model for each of the plurality of data fields.

The dependent claims 2-4, 6-8, 15-26 are allowed because they further limit the

independent claims or their parent claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
